## Easy Testimonial

I frequently see people who are unfamiliar with the benefits of acupuncture and have tried everything else without success. These patients are often hopeless and believe that nothing can help them. Reading testimonials from patients like you who have had good results with our clinic can give these patients the confidence they need to get started on their path to healing. Please fill out the following as truthfully as possible. If you have more than one major complaint, please fill out any different aspects on a second (or third) sheet.

My name is Linda Marchette. I came to Acupuncture & Chinese Medical Center in late Nov (month), 2008 (year) Because I was suffering from (description of health problem) tennis elbow

Surgery  Physical therapy  chiropractic  other \_\_\_\_\_

to resolve this problem with result like (describe your experience with these treatments)

the above only temporarily "took the edge off". Once I used the arm again, the pain returned.

I began to feel  some or  significant improvements in my condition after (#) 3-4 treatments at Acupuncture & Chinese Medical Center.

At this point in time my condition feels 90 % better. I now feel \_\_\_\_\_

Extremely happy I decided to give acupuncture a try and I am able to do just about anything I want. I do watch the intensity & amount of time for some activities, but keeps getting better.

I have also had significant improvement in other symptoms like migraine headaches, osteoarthritis (currently working on)

The clinic is <sup>conveniently located!</sup> has a warm atmosphere and the staff is very caring, helpful & friendly

I would recommend acupuncture to everyone & anyone looking for an alternative or supplementary treatment to common medical practice, because it really works! It worked for me.

I truly believe, the sooner you give acupuncture a try the sooner you will feel better!
